Arabic Grammar Lesson Guide
Form I Weak Verbs: The Assimilated Verb (الفعل المثال)

1. Introduction to Weak Verbs (الفعل المعتل)

In Arabic morphology, a **Weak Verb** is any verb that contains one or more of the weak radical letters (حروف العلة): **و** (Waw), **ي** (Ya'), or **أ** (Alif).

Unlike sound/regular verbs, these weak letters undergo structural changes (dropping or changing vowels) depending on the tense and formulation to make pronunciation smoother.

2. Group 1: The Assimilated Verb (الفعل المثال)

An **Assimilated Verb** is a specific type of weak verb where the **first radical letter** (the first letter of the root) is a weak letter—most commonly a **و** (Waw).

Core Example Root:

Root: To find → (W-J-D) و - ج - د

Past Tense (Form I): **وَجَدَ** (Wajada) — *He found*

3. The Hidden Structural Rule: Dropping the Waw (و)

> **The Rule:** When transitioning from the Past Tense to the Present Tense in Form I, if the first letter is a **و** (Waw) and the middle letter (Ayn radical) takes a **Kasrah (i)** or **Fathah (a)** in the present tense, the **drops out entirely و**.

This is why you noticed the structural shift in your sheet's cell where the Waw vanishes completely:

- Theoretical Form: يَوْجِدُ (Yawjidu) — *Heavy on the tongue*
- **Actual Spoken/Written Form:** **يَجِدُ** (Yajidu) — *Smooth and lightweight*

4. Minimum Core Information Chart

Root (الجذر)	Past Tense (الماضي)	Present Tense (المضارع)	Passive Voice (المبني للمجهول)	English Meaning
و - ج - د	وَجَدَ (Wajada)	يَجِدُ (Yajidu)	يُوجَدُ (Yujadu)	To find
و - ص - ل	وَصَلَ (Wasala)	يَصِلُ (Yasilu)	يُوصَلُ (Yusalu)	To arrive / connect
و - ض - ع	وَضَعَ (Wada'a)	يَضَعُ (Yada'u)	يُوضَعُ (Yuda'u)	To place / put

Key Observation on the Passive Voice:

Notice that in the **Passive Voice** (يُوجَدُ), the **returns (Waw) و**! This happens because the prefix vowel changes to a Dammah (u), which matches perfectly with the Waw sound, making it easy to pronounce without dropping it.

5. Agenda for Saturday's Session

1. Reviewing your Excel layout directly on screen.
2. Mastering the conjugation patterns across multiple pronouns for these specific verbs.
3. Interactive practice recognizing dropped root letters in reading exercises.
